

## Marta Lachowska

Senior Economist

Marta Lachowska completed her PhD in economics at Stockholm University in 2010. Prior to coming to the W.E. Upjohn Institute she spent three semesters at Princeton University's Industrial Relations Section as a visiting predoctoral researcher.

Her area of interest is mainly in the field of economics of social insurance, with a focus on the impact of public pensions and unemployment insurance systems on labor market outcomes and household behavior.

She is currently conducting research on the long-term consequences of job loss.

Her publications include:

[“The Effect of Income on Subjective Well-Being: Evidence from the 2008 Economic Stimulus Tax Rebates.”](#)  
Forthcoming in the *Journal of Human Resources*, 2017.

[“Outside Options and Wages: What Can We Learn from Subjective Assessments?”](#)  
2017. *Empirical Economics* 52(1): 79–121.

[“Effects of the Unemployment Insurance Work Test on Long-Term Employment Outcomes”](#)  
(with Merve Meral and Stephen A. Woodbury). 2016. *Labour Economics* 41: 246–265.

[“Expenditure and Confidence: Using Daily Data to Identify Shocks to Consumer Confidence.”](#)  
2016. *Oxford Economic Papers* 68(4): 920–944.

[“The Short-Term Effects of the Kalamazoo Promise Scholarship on Student Outcomes”](#)  
(with Timothy J. Bartik). 2013. *Research in Labor Economics* 38: 37–76.
